

ISO 18385 Forensic DNA Grade Certificate

The following QIAGEN products are manufactured in compliance to ISO18385:2016:

Investigator 26plex QS Kit (100), cat. no. 382615

Investigator 26plex QS Kit (400), cat. no. 382617

Our manufacturing facilities and production processes are ISO18385-compliant and meet the following requirements:

- Quality management system
- Staff exclusion database service
- Risk management of human DNA contamination by performing risk assessments for potential human DNA contamination and implementation of risk mitigations
- Validated cleaning and environmental monitoring procedures
- Batch-release testing with validated test methods
